

INTERNATIONAL MATHEMATICAL MODELING CHALLENGE **IM²C**

2025

February 3 – April 28, 2025

www.immchallenge.org

The International Mathematical Modeling Challenge (IM²C)[®] promotes the teaching of mathematical modeling and applications based on the firm belief that students and teachers need to experience the power of mathematics to better understand, analyze and solve real-world problems. In the spirit of promoting mathematical modeling in classrooms across the globe, the Challenge began in 2015.
